NOTES

- Students who did not meet achievement were usually those who had 2 or less years in the district.
- PARCC will be used by some colleges replacing SAT and ACT
Frequent taking of the test aids in college entrance performance.
- Scores have been distributed to teachers who will analyze the results to guide future instruction
- Use it as part of the album to give clearer picture of a student's skills and knowledge but does not determine placement in any program.
- Individual Student Reports will be sent home with students December 17th .

RESOURCES FOR PARENTS

The image shows a screenshot of the UnderstandTheScore.org website. The header is dark blue with the site name and a home icon on the left, and 'En Es' on the right. Below the header is a navigation menu with four items: 'Score Report Guide', 'Help Your Child' (with a dropdown arrow), 'About the Test', and 'Your State' (with a dropdown arrow). The main content area has a dark blue background with a pattern of faint educational icons. On the left, there is a circular graphic containing a pencil, a spiral notebook, and a computer mouse. To the right of this graphic, the text 'A New Kind of Academic Checkup' is displayed in a large, white, serif font.

Teachers walk through the score report step-by-step. They let parents know what to expect and provide tips on how they can support their child. [▶ Watch the video >](#)

PARENT GUIDE TO THE SCORE REPORTS

ENGLISH LANGUAGE ARTS / LITERACY PERFORMANCE

Key Information Provided in the Score Report

1 **Overall Student Performance** – This section of the report shows your student's overall numerical score and the performance level achieved based on that score. Level 1 indicates a student is not yet meeting grade level expectations and Level 5 indicates the student has a strong understanding of grade level material.

Page two of the score report provides additional information about your child's score and level of performance. Level 4 and above indicates that a student meets or exceeds grade level expectations and is well prepared for the next grade level.

2 **Score Graph** – The colored graph shows the score ranges for each performance level and where your child's score falls within that range. This gives you an indication of how close your child is to achieving the next level.

HOW TO HELP YOUR CHILD

Where is my child doing well? Where does he or she need additional support? And, how can I help?

The score reports provide more than just number scores; they also provide information about subsets of skills that show where your child excels and where he or she may need more support. You can use this information to support your child every day at home. For example, if your child is excelling in reading, you might challenge him or her to read more challenging books, to analyze and report to you on the day's news from the newspaper or to research and dig deeper into subjects of interest. If your child needs to improve in a certain subject area, talk to his or her teacher about additional support and materials, or use our online resources to locate activities you can use to reinforce learning at home. You can also use everyday moments as educational opportunities to enhance your child's learning. For example, if your child is struggling with fractions, have him or her help you in the kitchen and use measuring cups or pizza slices to help explain the relationship of parts to a whole.
