Dear Parents/Guardians of incoming 6th graders,

The following immunizations are required for sixth grade students in New Jersey schools. Documentation of vaccination must be provided prior to the first day of school if your child is 11 years or older.

Diphtheria and Tetanus Toxoids, and Pertussis Vaccine

One dose of Tdap (tetanus, diphtheria, pertussis) given no earlier than the 10th birthday.

Meningococcal Vaccine

One dose of meningococcal containing vaccine. The preferred Meningococcal Conjugate Vaccine, Menactra is given on or after the 11th birthday.

Students that are 10 years old when entering 6th grade will not be required to receive these vaccines until they turn 11 years of age. However, as long as they are 10 years of age or older they are eligible to receive the vaccine. **They will have to show documentation of receiving the vaccine within 2 weeks of their 11th birthday.**

Please schedule an appointment for your student to receive these vaccines if you have not already done so. Please provide the school with documentation of vaccination if your child has already received the vaccinations. The vaccine records can be mailed or dropped off at the school, faxed to the school office at 973-293-3391 or emailed to me at aworzel@montagueschool.org.

Stay well,

Allison Worzel RN,BSN

Montague Township School District Nurse
